

Baby Chicks Poultry Battery Cage System Designed to Support High Density Poultry with Operational Ease

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic pullet cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700 Mm

Baby Chicks Poultry Battery Cage System Designed to Support High Density Poultry with Operational Ease

System Overview

Farmrob's H-type chicken coop with multi-tiered cage system offers numerous advantages, including high rearing density, efficient land use, reduced labor requirements, lower risk of disease transmission, and simplified environmental management. The H-type cage design enables integration of advanced intelligent systems into poultry rearing operations. Farmrob is committed to driving technological advancement in the global chicken industry.

Key Features

Feeding System

Complete solution to uneven feed distribution using feed cart or chain with anti-corrosion troughs and patented components. Designed for cost efficiency and minimal feed waste.

Water Management

Equipped with pressure regulator and water level alarm for consistent water supply. Includes specialized backflush device for maintaining hygiene after medication administration.

Bird Environment

700mm story height provides ample movement space. Automatic manure removal system and environmental controls ensure clean, hygienic conditions with sufficient air and light.

Cage Construction

Made from Q235 Al-Zn alloy wire processed through straightening and welding. Standard specifications: 45cm height, 60cm depth, accommodating 11 chickens per cell.

Operational Benefits

Improve environmental hygiene

Maintain chicken health

Enhance farm management efficiency

Environmental protection and resource utilization

Reduce labor costs

Extend equipment service life

Support biosecurity management

Support & Services

Our high-quality, durable cage rearing system is designed to meet the needs of poultry farmers. We provide comprehensive technical support and services including:

Installation Guidance: Ensuring smooth installation and proper functionality

Regular Maintenance and Repair Services: Keeping systems in optimal condition

Technical Troubleshooting: Quick resolution of operational issues

Training and Instruction: Best practices in poultry management

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
