

## 80000 Large-Capacity Layer Chicken Cage System with Scientific Design Allowing Easy Management

Our Product Introduction

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H-type automatic layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Tier Height: 700 Mm

## Product Description

### 80000 Large-Capacity Layer Chicken Cage System with Scientific Design Allowing Easy Management

Better health, better productivity. Healthy chickens lay more eggs than those in poor conditions. Farmrob cages help maximize both laying potential and laying period.

#### Scientific Design Benefits

- Minimizes parasites and bacterial infections
- Sick birds are quickly spotted and isolated — stopping the spread of disease
- Manure won't pile up on the bottom net
- Eggs stay separated from waste, slashing contamination risk

#### Key Features

**700mm story height** promotes gentle airflow, enhances heat dissipation, and improves overall cooling efficiency. It also accelerates the replacement of stale air with fresh air.

**Biosecurity design** with every part carefully engineered to remove any points where dirt could accumulate or parasites could breed.

**Simple feeding trolley** with low failure rate delivers uniform feeding and straightforward operation. Patented innovations include the chicken driver and residue collector. Precise feed distribution optimizes consumption and reduces waste.

**Mature H-type design** increases breeding density per unit area. Automation reduces labor costs. Intensive digital management enables risk control and lowers mortality rates.

**Double water lines** ensure ample drinking water, while specially designed nipples prevent any leakage.

#### Support and Services

The cage rearing system is a high-quality, durable solution designed to meet the needs of poultry farmers.

Installation Guidance: Ensuring smooth installation and proper functionality of the system

Regular Maintenance and Repair Services: Keeping the system in optimal working condition

Technical Troubleshooting: Quickly resolving any issues encountered during use

Training and Instruction: Providing training on system usage and best practices in poultry management

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
