

H-type Poultry Battery Cage System with corrosion resistant cages for baby chickens

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H-type automatic pullet cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700 Mm

Product Description

H-type Poultry Battery Cage System

For decades, Farmrob has supplied modern poultry equipment to farmer owners worldwide. Our poultry cages are engineered for exceptional strength and long-lasting durability. The corrosion- and rust-resistant construction provides a safe, low-maintenance housing solution for your chickens. Designed with bird health in mind, the cage offers a comfortable and hygienic environment that promotes healthier, more productive flocks.

Key System Features

Fully Automated Operations: Complete automation handles precision feeding and drinking, automated manure removal, seamless egg collection, and intelligent climate control, dramatically reducing labor costs and maximizing workforce efficiency.

Automatic Manure Removal: This design keeps manure away from birds and eggs, improving hygienic conditions and reducing disease rates. Manure belts remain consistently on track, carrying waste from each tier to the end of the house for removal.

Dual Water System: Double water lines and double nipple drinkers ensure consistent and ample water supply. Farmrob's patented nipple design provides layers with unrestricted access to water while minimizing waste and preventing clogging. Water lines are adjustable to accommodate bird age.

Premium Construction: Manufactured using Q235 Al-Zn alloy wire with dense top grid patterns. Standard cage dimensions include 45 cm height and 60 cm depth, accommodating 11 chickens per cell.

Why Choose Farmrob?

With over 20 years of poultry farming experience and mature systems, Farmrob delivers comprehensive solutions:

- Customized construction and project design engineering solutions
- Reasonable and cost-effective quotations
- Chicken-oriented and animal-friendly equipment
- Advanced technical equipment with 25-year lifespan
- Professional installation and technical guidance
- Comprehensive farmer training on bird care and equipment maintenance
- Thoughtful service and complete after-sales support system
