

## Over 30000 Baby Chicks Poultry Battery Cage System Reduce Infection Risks in Indonesian Farms

Our Product Introduction

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic pullet cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 60 days

### Product Specification

- Service Life: Over 15 Years
- Services: Maintenance, Debugging, Technical Training, Installation Guidance
- Story Height: 700 Mm
- Feature: Anti-corrosion
- Trainings: Installation, Maintenance, Debugging

## Over 30000 Baby Chicks Poultry Battery Cage System Reduce Infection Risks in Indonesian Farms

### Optimal Chick Development Environment

Engineered to create a warm, secure, and stress-free environment, Farmrob's pullet cage is specifically designed to promote the healthy development and robust growth of young chicks. Each cage accommodates up to 11 birds, providing a unit area of 327 cm<sup>2</sup> per chick - an ideal space allocation for chicks from 0 to 105 days old.

The cage features an easy-to-clean, hygienic design that effectively minimizes bacterial buildup, drastically reducing the risk of infections and diseases. This results in safer, healthier, and more comfortable upbringing, leading to happier birds and improved long-term flock performance.

### Advanced Drinking System

Farmrob's drinking system is engineered for reliability and efficiency, ensuring poultry receive a consistent and clean water supply at all times. Constructed with non-deforming UPVC pipes and featuring dual water lines, the system guarantees sufficient water flow even under high-demand conditions.

Each nipple is equipped with an integrated cup, which prevents leakage caused by accidental contact from chickens. This thoughtful design keeps the cage dry, reduces moisture-related bacterial growth, and minimizes water waste, contributing to a cleaner, healthier environment.

### Efficient Feeding System

The integrated filling and feeding equipment, along with supporting patented products, ensures that feed is evenly and consistently delivered to each chicken across all tiers of the cage. This uniform distribution promotes balanced nutrition and healthy growth for every bird while significantly reducing feed waste, lowering production costs, and improving farm efficiency.

### System Features

Automatic systems

Friendly living environment

Real time data recording

Land saving and cost-effectiveness

Fine management

Easy to install and operate

Low morbidity and mortality

Large-scale breeding and good economic benefits

## Why Choose Farmrob?

Farmrob brings over 20 years of poultry farming experience and mature systems to every project.

- ✓ Customized construction and project design engineering solutions
- ✓ Reasonable and cost-effective quotation
- ✓ Chicken-oriented and animal-friendly equipment
- ✓ Advanced technical equipment with 25-year lifespan
- ✓ Professional installation and technical guidance
- ✓ Comprehensive training for proper bird care and equipment maintenance
- ✓ Thoughtful service and perfect after-sales service system
