

## 3-5 Tiers Commercial Layer Chicken Cage System for Thailand Farms

Our Product Introduction

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Tier Height: 700 Mm

## Product Description

### 3-5 Tiers Commercial Layer Chicken Cage System for Thailand Farms

#### System Overview

Farmrob H-type layer chicken cage is designed for fully enclosed breeding coops, ensuring complete separation between humans and chickens. This design significantly improves farm biosecurity while minimizing external disease exposure and effectively reducing mortality rates. Farmers benefit from healthier flock performance, lower medication costs, and higher overall production efficiency.

#### Cage System Design

**700mm cage story height** ensures every tier receives adequate fresh air, proper temperature, humidity, and sufficient lighting.

This design promotes uniform air distribution across all tiers, preventing heat or ammonia buildup while reducing negative pressure within the poultry house. Chickens breathe more smoothly and comfortably, with decreased risk of respiratory stress and disease.

Proper cage mesh size prevents chickens from getting stuck and eliminates manure buildup, maintaining a comfortable living environment. Smooth welding points are carefully polished to avoid damage to chickens' feathers or skin, reducing injury risk.

High-strength frame ensures equipment maintains structural integrity under heavy loads and long-term use, preventing deformation or collapse while reducing maintenance costs.

#### H-Type Battery Chicken Cage Features

- Centralized management for efficient energy and labor resource utilization
- Even feed distribution maintains chicken uniformity and healthy body condition
- Cage and manure removal system design ensures friendly and hygienic environment
- Optimized energy efficiency with advanced egg collection system for lower breakage rates

#### Support and Services

Our cage rearing system is high-quality and durable, designed to meet poultry farmers' needs. We provide comprehensive technical support including:

- Installation Guidance: Ensuring smooth installation and proper system functionality
- Regular Maintenance and Repair Services: Keeping the system in optimal working condition
- Technical Troubleshooting: Quick resolution of operational issues
- Training and Instruction: Comprehensive training on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
