

Corrosion- and rust-resistant Layer Chicken Cage System for Thailand Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Tier Height: 700 Mm

Corrosion- and Rust-Resistant Layer Chicken Cage System for Thailand Farms

Product Overview

Crafted from high-quality Mg-Al-Zn alloy

Farmrob's poultry wire mesh delivers exceptional strength and long-lasting durability. This corrosion- and rust-resistant cage ensures a safe, low-maintenance housing solution for your chickens, significantly reducing the need for frequent repairs or replacements even under intensive farming conditions.

Designed with chicken welfare as a top priority, the cage provides a spacious, comfortable, and hygienic environment that promotes healthier birds. Ample living space reduces aggression and stress, while the smooth, easy-to-clean surfaces minimize pathogen buildup. Our patented automatic drinking and feeding devices guarantee a clean, consistent water supply and uniform feed distribution, effectively enhancing disease prevention and feed conversion rates.

Key Features

Optimal Tier Height (700 mm): Provides generous movement space, allowing birds to stand, stretch, and express natural behaviors without restriction.

Automatic Manure Removal System: Efficiently removes waste at regular intervals, significantly reducing ammonia buildup and airborne pathogens.

Engineered Environment Control: Includes balanced airflow, precise temperature regulation, and consistent light distribution for a stable and comfortable living environment.

Clean, Hygienic Living Space: Excellent air circulation and natural-like lighting for respiratory health, skeletal development, and steady growth.

Feeding System: Operates on a regular, quantitative basis with integrated filling and dispensing devices for precise feed delivery.

Improved Production Outcomes: Leads to higher survival rates, better feed efficiency, and increased overall productivity.

Operational Benefits

- Improve environmental hygiene
- Maintain chicken health
- Enhance farm management efficiency
- Environmental protection and resource utilization
- Improvement of egg production
- Minimize egg breakage and cracks
- Reduce labor costs
- Extend equipment service life
- Support biosecurity management

Why Choose Farmrob?

With over 20 years of poultry farming experience and mature systems, Farmrob delivers comprehensive solutions for modern poultry operations.

Customized construction and project design engineering solutions

Reasonable and cost-effective quotation

Chicken-oriented and animal-friendly equipment

Advanced technical equipment with 25-year lifespan

Professional installation and technical guidance

Comprehensive training for proper bird care and equipment maintenance

Thoughtful service and complete after-sales service system
