

## Automatic Harvesting Broiler Cage System for Healthy Growth

Our Product Introduction

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: Automatic harvesting broiler cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Material: Mg-Al-Zn Alloy
- Tier: 3 Tiers, 4 Tiers
- Lifespan: Over 15 Years
- Trainings: Installation, Maintenance, Debugging

## Product Description

### Automatic Harvesting Broiler Cage System for Healthy Growth

Designed for modern broiler farming, this automatic harvesting cage system redefines efficiency, poultry health and growth, and durability. By integrating effective manure removal, scientifically optimized air circulation, and high-strength corrosion-resistant materials, it addresses key industry challenges including high labor costs, mortality rates, chronic disease management, and equipment depreciation.

#### System Advantages

- Matched with cage dimensions, the automatic harvesting design enables mechanized or automatic harvesting without manual catching
- Eliminates panic, bruising, and wing breakage caused by manual handling, significantly reducing harvest losses and protecting profitability
- The 0.80m tier height promotes rapid air circulation and quick ammonia removal, effectively preventing respiratory diseases
- Ample vertical space allows for freer movement, promotes weight gain, and shortens time to market
- Q235 Al-Zn alloy wire mesh and Al-Zn-Mg alloy support resist high-humidity and ammonia corrosion, ensuring no rust and no bottom net deterioration
- Offers twice the service life of standard iron cages - one-time investment with long-term returns, reducing equipment depreciation costs
- Scientifically balanced length, width, and height proportions provide adequate activity space per broiler while achieving high-density farming, maximizing output per unit area

#### Single Cage Specifications

Length	1250 mm
Width	1280 mm
Height	450 mm
Tier Height	800 mm
Raising Density	50kg/m <sup>2</sup>

#### Why Choose Farmrob?

Farmrob has more than 20 years of poultry farming experience and mature system.

- Customized construction and project design and engineering solutions
- Reasonable and cost-effective quotation
- Chicken-oriented and animal-friendly equipment
- Advanced technical equipment with 25-year lifespan
- Provide installation and technical guidance
- Training for farmers on proper bird care and equipment maintenance
- Thoughtful service and perfect after-sales service system
