

Easy To Operate And Maintain Layer Chicken Cage System In Thai Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Tier Height: 700 Mm

Easy To Operate And Maintain Layer Chicken Cage System In Thai Farms

The Farmrob is built with a robust construction that features sturdy supports and a reinforced cage design, making it capable of securely supporting multiple chickens. Every structural element is engineered for durability and safety, ensuring the cage remains steady even under active use. Beyond strength, the thoughtful design prioritizes the comfort of the poultry, providing ample space, proper ventilation, and a stress-reducing environment. These features collectively enhance the chickens' overall well-being, which in turn supports more consistent and optimized egg production efficiency. With the Farmrob, farmers can expect a reliable, long-lasting housing solution that benefits both poultry and productivity.

Key Features

- Automatic control systems:** The facility is equipped with fully automatic control systems that regulate temperature, feeding, and manure removal, ensuring consistent and reliable operation.
- Simplified management and low labor:** User-friendly design simplifies daily management tasks, significantly reducing labor requirements and allowing farm staff to focus on higher-value activities.
- Double water line and enough feeding position:** A double water line system ensures a continuous clean water supply, while ample feeding positions prevent crowding and guarantee equal access to feed for all birds.
- High feed conversion ratio:** Well-designed equipment contribute to even feed distribution and a high feed conversion ratio, helping farmers save feeds.
- Easy to operate and maintain:** All components are designed for straightforward operation and maintenance, with accessible parts and clear instructions that minimize downtime and repair costs.
- Comfortable environment with fresh air and soft wind:** The system maintains a comfortable indoor environment by providing constant fresh air circulation and a gentle airflow, reducing stress and promoting poultry health.
- Low morbidity and mortality:** Thanks to the hygienic design and stable environmental control, morbidity and mortality rates are kept low, resulting in healthier flocks and fewer production losses.

Specification	Details
Tiers	3-12
Quantity of Cells per Cage	2; 3
Each Cell Size (mm)	630*650*450; 600*650*450
Cage Size	1260*650*450; 1800*650*450
Quantity of Birds per Cell	9
Quantity of Birds per Cage	18; 27
Story Height	700mm

Support and Services

The cage rearing system is a high-quality, durable solution designed to meet the needs of poultry farmers. We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.

Installation Guidance: Ensuring smooth installation and proper functionality of the system.

Regular Maintenance and Repair Services: Keeping the system in optimal working condition.

Technical Troubleshooting: Quickly resolving any issues encountered during use.

Training and Instruction: Providing training on system usage and best practices in poultry management.
