

Combining Robust Engineering And Innovative Technology Layer Chicken Cage System for Vietnam Farms

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Tier Height: 700 Mm

Product Description

Combining Robust Engineering And Innovative Technology Layer Chicken Cage System for Vietnam Farms

As a leading provider of poultry rearing solutions, Farmrob specializes in innovating, designing, and continuously improving automatic systems that enhance modern poultry production and maximize operational productivity. Our core strength lies in integrating cutting-edge technology with practical, field-tested engineering, delivering intelligent automation that reduces labor dependence, increases biosecurity, and optimizes resource efficiency across the production cycle.

What sets Farmrob apart is our commitment to customized performance. Beyond equipment supply, Farmrob partners with poultry producers to improve long-term operational outcomes. Our portfolio includes automated feeding, drinking, climate control, egg collection, and manure removal systems, all integrated through user-friendly centralized management platforms. Real-time data monitoring, remote adjustments, and predictive maintenance features empower farm managers to make faster, smarter decisions, minimizing downtime and maximizing flock health.

From small-to-medium farms scaling up to large-scale industrial operations, Farmrob delivers future-ready solutions that balance innovation with practicality. By combining robust engineering, regional adaptability, and continuous improvement, we help poultry producers worldwide achieve higher productivity, lower operating costs, and more sustainable farming practices.

Key Features

Large-scale breeding and good economic benefits

The system supports large-scale breeding operations while maintaining efficiency, ultimately delivering strong economic returns through higher productivity and lower operating costs.

Good illumination and ventilation

Proper illumination supports natural poultry behavior and egg production, while effective ventilation removes excess heat, humidity, and harmful gases, ensuring a healthy growing environment.

Anti-aging material

Critical components are made from anti-aging materials that resist corrosion, UV damage, and wear, extending the service life of the equipment even under intensive use.

No contamination between waste and chicks

The thoughtful layout effectively separates waste from chicks, preventing cross-contamination and reducing the risk of disease transmission for cleaner, safer rearing conditions.

Support and Services

The cage rearing system is a high-quality, durable solution designed to meet the needs of poultry farmers. The technical support and services we offer include:

Installation Guidance: Ensuring smooth installation and proper functionality of the system.

Regular Maintenance and Repair Services: Keeping the system in optimal working condition.

Technical Troubleshooting: Quickly resolving any issues encountered during use.

Training and Instruction: Providing training on system usage and best practices in poultry management.

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
