

Over 80000 Birds Layer Chicken Cage System Enhanced Poultry Health Management and Operational Efficiency in Modern Farming

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type automatic layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Tier Height: 700 Mm

Product Description

Over 80000 Birds Layer Chicken Cage System Enhanced Poultry Health Management and Operational Efficiency in Modern Farming

As a long-established leader in poultry farming innovation, Farmrob brings over decades of specialized expertise to the design, engineering, and delivery of high-performance equipment and fully automated rearing systems. Our mission is to redefine the standards of modern poultry production by enhancing operational efficiency, keeping poultry healthy, and maximizing long-term profitability for our clients worldwide.

What sets Farmrob apart is not just the robustness of our technology, but our deep commitment to adaptability. We understand that no two farming environments are alike. Our solutions are meticulously engineered to perform reliably under different conditions.

Every system we offer is the result of close collaboration with local farmers, ensuring that our equipment is not only technologically advanced but also culturally and operationally attuned to regional needs. From climate-controlled ventilation and feeding lines to waste management and data-driven monitoring platforms, our integrated solutions are modular, scalable, and customizable, designed to grow with your business.

System Features

Optimal Ventilation: With a story height of 700 mm and effective ventilation control, our equipment ensures gentle airflow, promotes effective heat dissipation, and accelerates the exchange of fresh air with stale air, significantly boosting overall cooling efficiency.

Reinforced Structure: The middle support, equipped with reinforced support legs, enhances structural rigidity and provides ample strength to bear the full weight of the chickens.

Easy Access Design: The sliding cage door is designed for effortless operation, facilitating swift and efficient bird handling. Its smooth gliding mechanism enables safe, convenient access for routine daily care while minimizing stress on both the flock and the operator.

Premium Materials: Engineered with premium Al-Mg-Zn alloy plates and carefully selected components, our poultry housing solutions are designed for ultimate durability. These materials resist rust, wear, and chemical corrosion, ensuring reliable performance under repeated cleaning cycles and extreme climatic conditions.

Precision Feeding: Our feeding system ensures that every portion of feed is delivered evenly and reliably to every bird. By eliminating overfeeding, underfeeding, and spillage, this precision optimizes nutritional intake while drastically cutting feed waste.

Technical Support & Services

Our cage rearing system is a high-quality, durable solution designed to meet the needs of poultry farmers. We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.

Installation Guidance: Ensuring smooth installation and proper functionality of the system

Regular Maintenance and Repair Services: Keeping the system in optimal working condition

Technical Troubleshooting: Quickly resolving any issues encountered during use

Training and Instruction: Providing training on system usage and best practices in poultry management
