

150000 Birds Layer Chicken Cage System With Mature And Cage Solutions Engineered To Promote Healthy Growth

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type layer equipment
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700mm

Product Description

150000 Birds Layer Chicken Cage System With Mature And Cage Solutions Engineered To Promote Healthy Growth

For over three decades, Farmrob has been at the forefront of the poultry farming industry, cultivating deep expertise in both husbandry practices and advanced equipment manufacturing. Our unwavering commitment is to deliver mature, dependable, and future-ready solutions tailored specifically for standardized cage farming systems, ensuring that every component performs with precision and durability under various conditions.

Our equipment is purpose-built for flexibility and adaptability, capable of scaling effortlessly to accommodate diverse application scenarios—from modest family-owned layer houses to expansive industrial complexes. Our customizable systems allow farmers to optimize space, workflow, and resource utilization without compromising bird comfort or health. With our integrated system architecture, a single hen house can achieve a maximum stocking density of up to 150,000 birds.

Even at high densities, every design detail is engineered to reduce stress and encourage healthy growth throughout the entire production cycle. By combining industrial-scale productivity with respect for poultry biology, Farmrob empowers poultry producers to achieve higher output, better flock health, and greater operational confidence within a single, integrated housing solution.

Farmrob is not just a supplier of equipment; we are a long-term partner in your success, bridging the gap between high-efficiency production and responsible, welfare-conscious farming.

Key Features

Advanced Al-Zn Alloy Wire Meshes: Engineered with precision grid structure to prevent foot entrapment while ensuring smooth manure passage. The soft yet resilient material provides a cushioned surface that minimizes egg damage and protects hen foot health through reduced pressure points and abrasions.

Precision-Crafted Middle Supports: Manufactured using advanced bending techniques from high-grade materials with exceptional dimensional accuracy. The 40×30mm supports feature perfectly smooth, non-abrasive surfaces and deliver reliable structural performance while maintaining a compact profile for seamless integration.

Integrated Environmental Control: Effective ventilation system for optimal airflow and temperature regulation, complemented by fully adjustable lighting for different growth stages. The fully automatic manure removal system minimizes harmful gas accumulation and bacterial growth, ensuring high hygiene standards that accelerate growth and reduce mortality rates.

Support and Services

Our high-quality, durable cage rearing system is designed to meet the comprehensive needs of poultry farmers. We provide exceptional technical support and services including:

Installation Guidance: Ensuring smooth installation and proper system functionality

Regular Maintenance and Repair Services: Keeping systems in optimal working condition

Technical Troubleshooting: Quick resolution of operational issues

Training and Instruction: Comprehensive training on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
