

## Easy Maintenance Cage Free System and For Continuous Operation And Improved Farm Profitability

Our Product Introduction

### Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: cage-free
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: L/C,T/T
- Supply Ability: 50000 sets per month

### Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling System, Automatic Manure Removal System
- Trading Method: FOB, CFR, CIF, EXW

## Product Description

### Easy Maintenance Cage Free System and For Continuous Operation And Improved Farm Profitability

Farmrob has owned land and built a high-tech factory complex covering 120,000m<sup>2</sup>, housing six specialized workshops for metal processing, mesh production, precision machining, welding, assembly, and electrical controls. This vertically integrated facility allows us to maintain strict quality control at every stage, ensuring that each component meets our high standards before delivery.

Our core mission is to provide farm owners with tailored, cost-effective solutions that address their specific operational needs. Every product we manufacture is engineered for durability and performance, combining rugged construction with smart design to minimize maintenance and maximize uptime in demanding commercial poultry environments.

At the heart of our offering is a welfare system that ensures a safe, clean, and stress-free habitat for layers, promoting healthier flocks and better productivity. Built from premium corrosion-resistant materials, the system delivers an exceptional service life of over 15 years, offering farm owners a reliable, long-term investment with superior return and lasting peace of mind.

Farmrob's cage-free system is meticulously engineered to promote both the physical and psychological well-being of laying hens, while delivering tangible production benefits for farm operators.

#### 1. Natural behavior and physical freedom

The system provides abundant open space with multi-tiered perches, climbing stairs, activity platforms. Hens can freely stretch their wings, jump between levels, roost at varying heights, and explore their surroundings, fully expressing natural behaviors such as wing flapping, ground scratching, and social nesting.

#### 2. Stress reduction and flock health

By eliminating confinement-related stressors, the design prevents common behavioral issues and fosters a calm, harmonious flock dynamic. The spacious layout includes easily accessible nesting zones and elevated roosts, all arranged to reduce competition and promote social stability among hens.

#### 3. Farm performance and sustainability

This hen-centered approach translates directly into operational advantages: healthier birds, lower mortality, reduced reliance on veterinary interventions, and consistently improved egg quality. The system balances ethical animal care with practical farm management, positioning.

#### Support and Services:

The cage rearing system is a high-quality, durable, which designed to meet the needs of poultry farmers.

The technical support and services we offer include:

1. Installation Guidance: Ensuring smooth installation and proper functionality of the system.
2. Regular Maintenance and Repair Services: Keeping the system in optimal working condition.
3. Technical Troubleshooting: Quickly resolving any issues encountered during use.
4. Training and Instruction: Providing training on system usage and best practices in poultry management.

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
