

50000 Birds Poultry Battery Cage System With Hygienic Design And Spacious Layout

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H type pullet cage
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: T/T,D/P
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Ventilation And Cooling Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Story Height: 700 Mm
- Cage Size: 1800*600*450mm
- Highlight: **50000 birds poultry battery cage, hygienic poultry battery cage system, spacious layout poultry battery cage**

Product Description

50000 Birds Poultry Battery Cage System With Hygienic Design And Spacious Layout

Crafted from high-quality Mg-Al-Zn alloy, Farmrob's poultry cage delivers exceptional durability. This advanced material composition provides exceptional structural strength along with built-in resistance against corrosion, rust, and wear from constant cleaning and environmental exposure. The result is a long-lasting housing solution that withstands daily farm operations while requiring minimal upkeep, saving time, labor, and replacement costs.

Every aspect of the cage is thoughtfully engineered to prioritize chicken welfare. The spacious interior layout offers ample room for natural movement, reducing stress and aggression among flock members. The hygienic, easy-to-clean surface prevents buildup of harmful bacteria, mold, and ammonia from waste, contributing to improved respiratory health, lower mortality rates, and consistently higher egg production or growth performance.

Our patented water and feed delivery systems ensure a steady, uncontaminated supply at all times. The leak-proof water nipples and waste-minimizing feed system promote uniform nutrition and hydration across the flock, significantly reducing the risk of digestive issues and waterborne diseases.

Technical Specifications

Specification	Value
Length	1800mm
Depth	600mm
Height	450mm
Story Height	700mm
Birds/Cell	11 birds (0-105 days), 12 birds (0-80/90 days), 13 birds (0-60/70 days)
Cells/Cage	3

Pullet-Specific Design

Specifically tailored for pullets from day-old to 105 days, each cage accommodates up to 11 birds with a generous unit area of 327 cm² per chick. This density strikes an ideal balance between space efficiency and comfort, supporting healthy skeletal development, feathering, and immune system maturation during crucial early weeks. The cage's smooth, rounded edges and secure latching mechanisms protect young chicks from injury, while its insulated design helps maintain a warm, draft-free microclimate that reduces stress and encourages steady weight gain.

Support and Services

Our comprehensive technical support and services include:

Installation Guidance: Ensuring smooth installation and proper functionality

Regular Maintenance and Repair Services: Keeping the system in optimal condition

Technical Troubleshooting: Quickly resolving any operational issues

Training and Instruction: Providing training on system usage and poultry management best practices

We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.
