

Artificial Insemination Breeder Cage Poultry Battery Cage System Developed To Enhance Poultry Farming Efficiency By Combining Automation With Ergonomic Cage Design

Our Product Introduction

Basic Information

- Place of Origin: Chengdu, China
- Brand Name: Farmrob
- Certification: ISO9001, CE
- Model Number: H-type breeder cage for artificial insemination
- Minimum Order Quantity: 200 sets
- Price: USD 65-200/set
- Packaging Details: Normal export packing 20ft / 40HQ container
- Delivery Time: 60 days
- Payment Terms: D/P,T/T
- Supply Ability: 50000 sets per month

Product Specification

- Features: Anti-corrosion, Durable, Easy To Install, Easy To Clean
- Characteristics: Automatic Drinking System, Automatic Feeding System, Automatic Egg Collection, Automatic Manure Removal System
- Service Life: Over 15 Years
- Trainings: Installation, Maintenance, Debugging
- Trading Method: EXW, CFR,CIF, FOB
- Tier Height: 700 Mm
- Highlight: **automated poultry battery cage system, ergonomic poultry breeder cage, artificial insemination poultry cage**

Product Description

Artificial Insemination Breeder Cage Poultry Battery Cage System

Developed to enhance poultry farming efficiency by combining automation with ergonomic cage design.

Comprehensive Poultry Farming Solutions

Farmrob provides comprehensive, innovative solutions with a strong focus on the design, development, and delivery of high-performance equipment and advanced automated systems. We are dedicated to transforming modern poultry production operations to optimize every stage of the production process, empowering farmers and producers to achieve greater efficiency, consistency, and productivity on a global scale.

What sets Farmrob apart is our commitment to tailoring solutions to the unique needs of each region we serve. We understand that successful poultry farming depends on environmental and biological factors. Our solutions are carefully engineered based on key variables such as local weather conditions, specific poultry breeds, and humidity levels, ensuring optimal performance wherever deployed.

Product Features

Spacious Design for Larger Breeds

Our poultry cages are specifically engineered to accommodate chickens with larger body sizes, providing ample space and reliable structural support. Whether raising heavy breeds or broilers that require extra room to grow, these cages ensure optimal comfort, health, and performance for your flock.

Durable Construction Materials

Crafted from high-quality, corrosion-resistant materials including Al-Zn-Mg alloy and Al-Zn alloy, known for exceptional strength and long-lasting durability. These advanced materials withstand harsh environmental conditions including extreme temperatures, high humidity, and exposure to ammonia and other corrosive elements commonly found in poultry houses.

Integrated Automation Systems

The tiered cage system simplifies daily farm management and streamlines routine operations. It integrates seamlessly with automatic feeding, drinking, manure removal, and egg collection systems, dramatically reducing manual labor requirements. Easy access to each tier enhances operational convenience for inspection, maintenance, and handling.

- Extended service life with minimal maintenance requirements
- Sturdy frame built to support heavy loads and endure frequent cleaning
- Reduces time and labor costs while improving productivity

Technical Support & Services

Our high-quality, durable cage rearing system is designed to meet the needs of poultry farmers. We are committed to delivering exceptional customer service and support to help your poultry farming business thrive.

- Installation Guidance:** Ensuring smooth installation and proper functionality
- Regular Maintenance and Repair Services:** Keeping the system in optimal working condition
- Technical Troubleshooting:** Quickly resolving any issues encountered during use
- Training and Instruction:** Providing training on system usage and best practices in poultry management
